

Put in a coffin

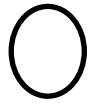

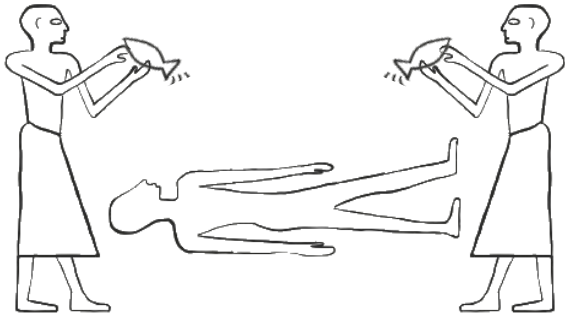

Wrap the body in bandages, making sure to tuck amulets in.

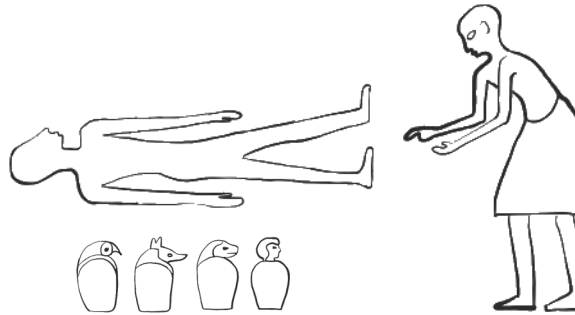

Remove the brain through the nostril, throw it away

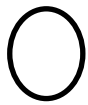

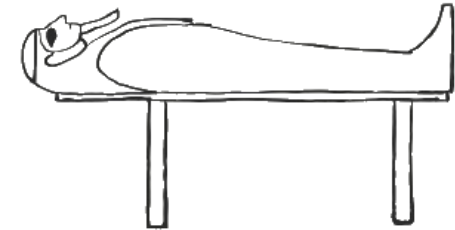

Cover the body with natron (a kind of salt found in the desert) and leave for 40 days

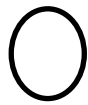

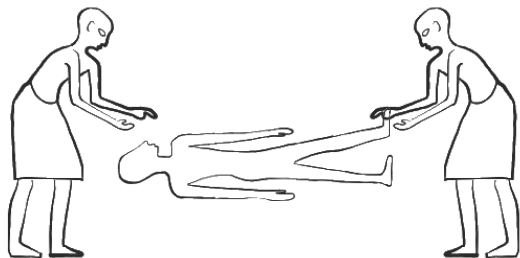

Remove the internal organs (except the heart!) and put them in canopic jars

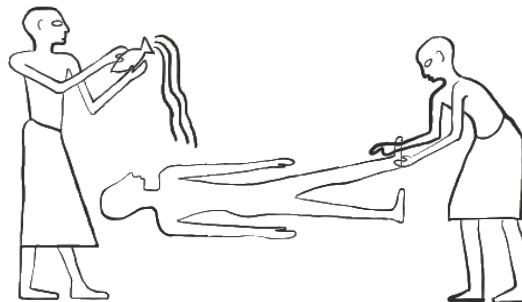

Add a death mask, decorate the mummy

Stuff the body with sawdust, hay, spices, whatever you have around you. Make sure you fill the eye sockets as well! Sometimes small onions or garlic were used

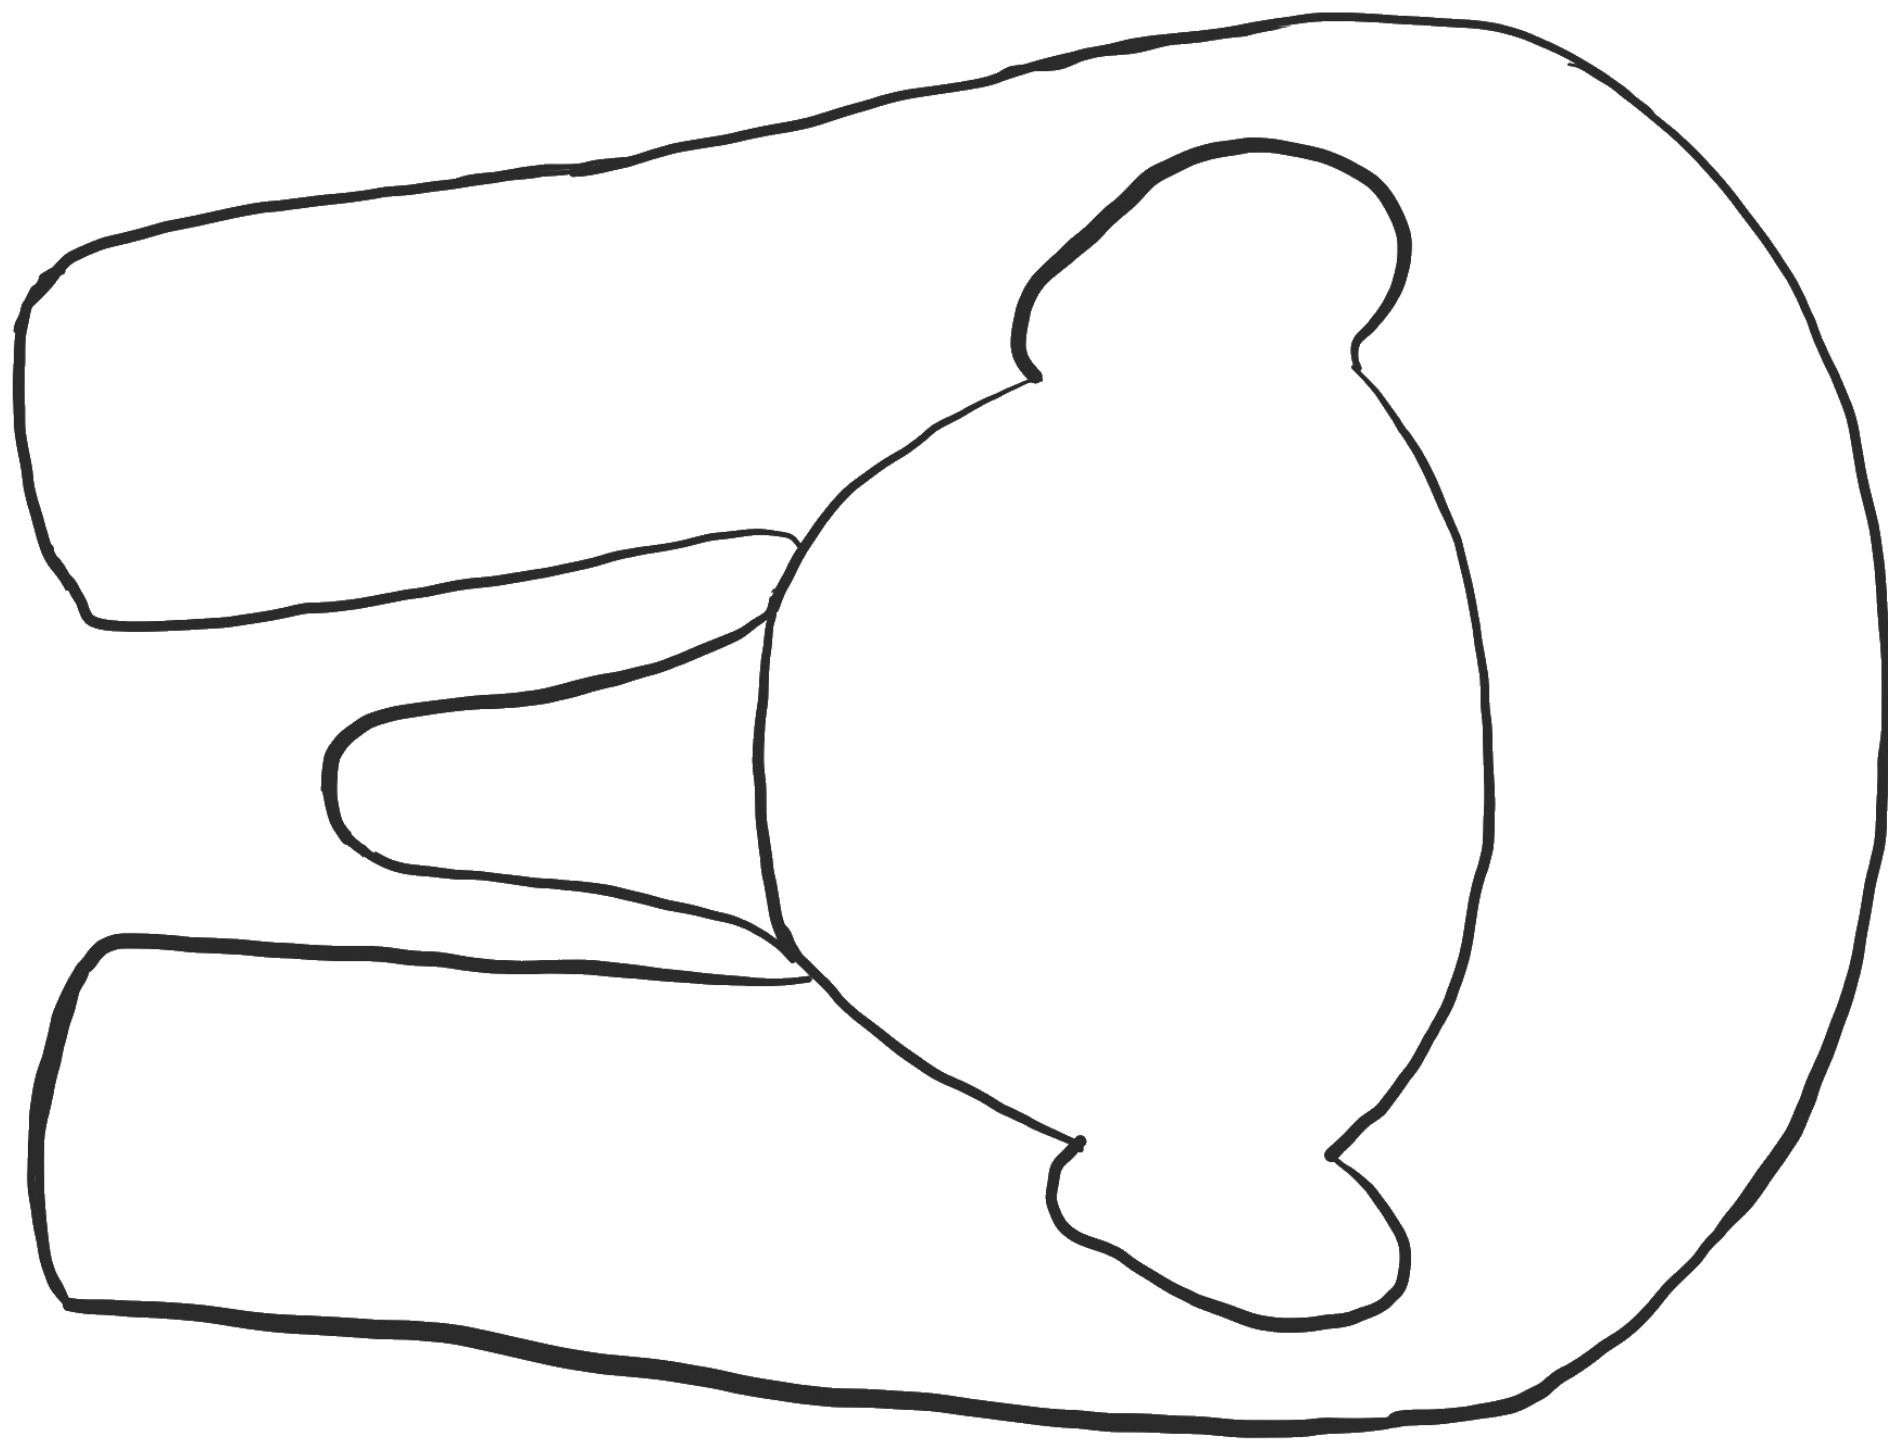

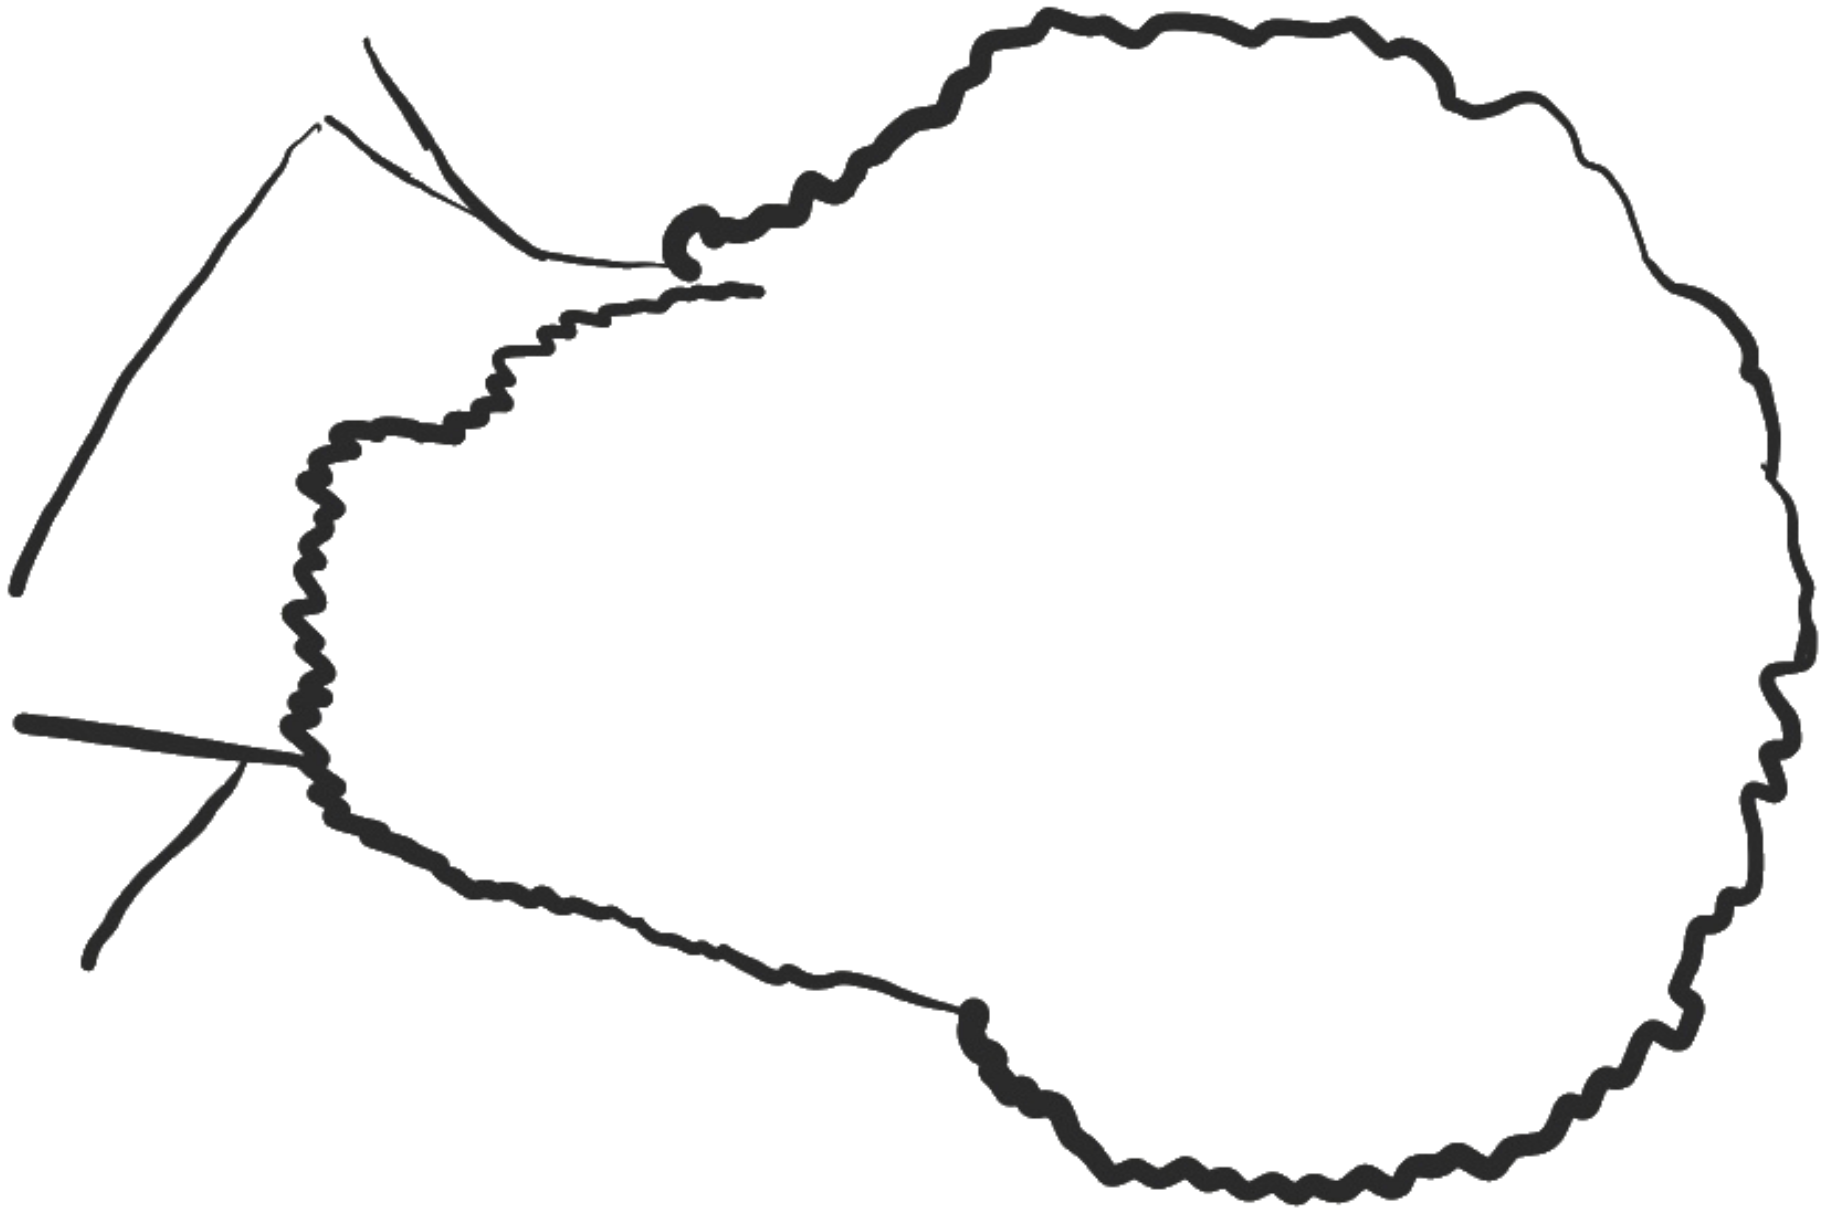

Clean off the salt, rub the body with oil

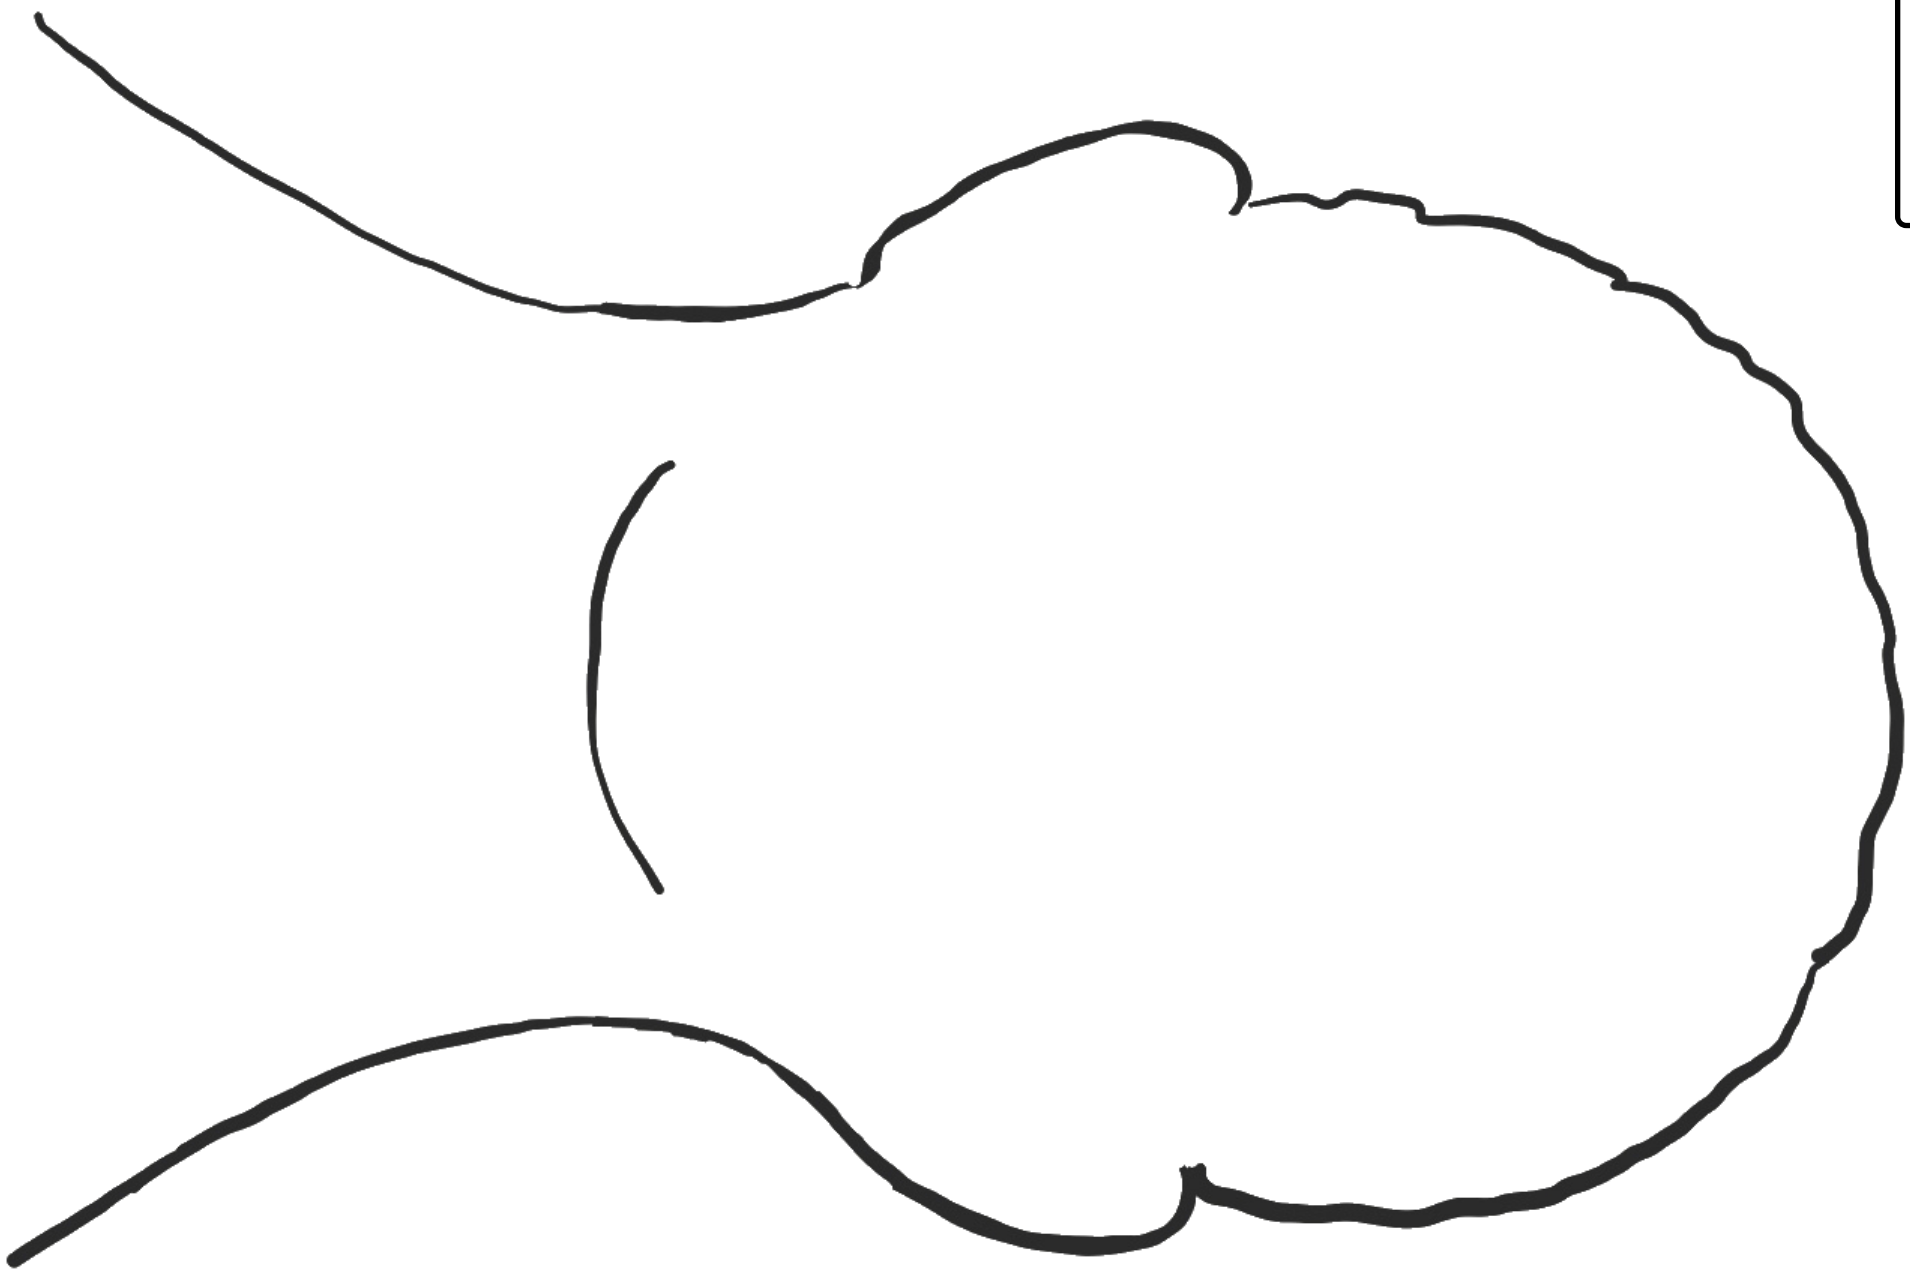

Wash the body
